ITH

BUILDING WEBSITES THAT GET YOU BUSINESS

Hey, my name is Muhammad Haris. I specialize in building websites that load fast, perform best on different screen sizes and browsers, rank well in search engine results and *websites that convert*.

send an email at *mail@mharis.me*

SERVICES

CONSULTATION - FREE

I have some knowledge and experience building web applications. I help small businesses make better decisions in their web adventures.

WEB DEVELOPMENT

This is what I do best. whether It's a small fix, or building a full-fledged website, I am here at your service. Connect with me to get stuff done.

UI DESIGN

This is not my main area of focus. But if you need design customization or hiring an experienced designer is out of your budget, put my web design skills to the test.

WORKS

MHARIS.ME

It's my personal website, built with React and Gatsby. It features recent works of mine and a blog where I write about web development, Go and Javascript programming.
